

  
**Nano Technology &  
Business Forum™**  
Dedicated to the business of Nanotechnology

THURSDAY, DECEMBER 9, 2004

4:00 P.M. TO 6:00 P.M.

Greenberg Traurig  
One International Place, 20th Floor  
Boston, MA 02110

Please join the members of the Greater Boston nanotechnology community for the second meeting of the **Nano.: Technology & Business Forum.**

Topic:

**Application of nanoscale technology in bio-instrumentation**

As much focus has been directed to the development of new tools and techniques for sensing and manipulating, as well as architectures that integrate across multiple length scale, the application of nanoscale technology to bio-instrumentation can potentially deliver tools that will open broad opportunities in nanobiotechnology and nanomedicine.

Speakers:

**Donhee Ham** – IC/Microfluidic chips for manipulation of biosystems

**Dale Larson** – Surface plasmon biosensor

Please join us for a networking reception following the presentation.

For more information about the **Nano.: Technology & Business Forum**, please contact Chinh H. Pham at [phamc@gtlaw.com](mailto:phamc@gtlaw.com) or 617-310-6239. You may RSVP via email to Debbie Gifford at [giffordd@gtlaw.com](mailto:giffordd@gtlaw.com).

Our Forum partners include:

**Seraphima  
Ventures**
